Dear Public Service Commission,

Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

Sincerely,

Gary Smith

Being disabled as well as unemployable,

I am disabled and unemployable and trying to live on limited fixed income. I simply cannot afford an increase in my electricity bill...
